

On your Android device, enter Settings.

Scroll down and tap Accounts.

Tap Add Account.

Tap Email.

Enter your email address and password.

Tap IMAP Account.

Verify your email address and password are entered, and use your **full** email address for the user name. Fill in the IMAP server name, security type, and port as seen here.

Enter the SMTP server name, security type, and port as below.

Check "Require sign-in," enter your **full** email address for the user name, and your password.

The screenshot shows the 'Outgoing server settings' screen. At the top, there is a blue header with a back arrow and the text 'Outgoing server settings'. Below the header, the settings are as follows: SMTP server is 'newmail.pil.net'; Security type is 'None'; Port is '587'; 'Require sign-in' is checked with a green checkmark; User name is 'fricciardi@pil.net'; Password is masked with dots; 'Show password' is unchecked with an empty checkbox. At the bottom, there is a grey bar with the text 'NEXT' and a right-pointing arrow.

Change the sync settings to match below.

The screenshot shows the 'Account options' screen. At the top, there is a blue header with a back arrow and the text 'Account options'. Below the header, the settings are as follows: 'Period to sync Email' is 'All'; 'Sync schedule' is 'Automatic (Push)'; 'Peak schedule' is 'Automatic (Push)'; 'Sync Email' is checked with a green checkmark; 'Notify me when email arrives' is checked with a green checkmark; 'Auto download attachments' is unchecked with an empty checkbox, and a sub-note reads 'Automatically download attachments when connected to a Wi-Fi network.' At the bottom, there is a grey bar with the text 'NEXT' and a right-pointing arrow.

Name the account as below, and then enter your own first and last name.
